DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8 are drawn to a martial arts head gear, classified in class 2, subclass 425.
 - II. Claims 9-16 are drawn to a martial art laminated pad, classified in class 5, subclass 417.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are structurally unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case invention I pertains to a martial arts head gear that is classified in 2/425, while invention II pertains to a martial art laminated pad that is classified in 5/417.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Response to Arguments

3. The arguments filed on June 7, 2006 has been considered. In view of such a restriction having groups I and II has been made with regard to claims 1-16 as indicated above.
